Luxury · Retail Excellence · Customer Experience

School Partner Information

A free practical challenge that helps participants build visible proof of work through a realistic business case.

Challenge overview

Participants transform raw observations from a luxury boutique mystery visit into a professional report.

How should a luxury boutique turn mystery-visit observations into clear service improvements?

No coding is required. The goal is to think clearly, identify priorities and build a practical recommendation.

Suitable participants

- Students and recent graduates
- Emerging professionals and professionals
- Freelancers / independent consultants
- Career changers
- People interested in retail excellence or customer experience

Expected output

- An 8-12 page report
- A reusable scorecard
- A 300-word management summary

This certificate recognizes work completed during a challenge experience. It is not an academic diploma or accredited qualification.

Skills assessed

- Retail Excellence
- Customer Experience
- Observation
- Commercial Judgement
- Reporting
- Professionalism

How to share the poster on campus

Page 1 of this kit is designed as a standalone student poster.

Place it in classrooms, corridors, student lounges, cafeterias, libraries, career services areas, elevators and common rooms.

Ready-to-share assets

Copy, paste and adapt these messages for student communications, classroom reminders and program newsletters.

Ready-to-send school email

Subject: Participate in a Mystery Client Visit Report Challenge — Free, No Coding Required

Dear students,

I would like to share a free opportunity that may be relevant to your studies and career development.

Tech For Fashion is launching the Mystery Client Visit Report Challenge, a practical challenge focused on luxury retail, retail excellence and customer experience.

Participants will work on a realistic business case:
How should a luxury boutique turn raw mystery-visit observations into a clear, objective and actionable management report?

No coding is required. The goal is to observe carefully, judge priorities commercially and present recommendations professionally.

Participants who complete the challenge will receive a Proof of Work Certificate and create a portfolio-ready project they can share on LinkedIn, in a portfolio or during an interview.

Key dates:

- Registration opens: October 13, 2026
- Full brief released: November 3, 2026
- Submission deadline: December 7, 2026
